ANNOUNCEMENT.

IN consequence of ill-health, I have felt it my duty under the advice of my physician, to give up business entirely. I have sold out my stock of Books, Stationery, &c., to Henry Kemphall, who has been with me during the past year, and for the four previous years with Messrs. D. Appleton & Co., of New York.

It is with ordinary regret that I relinquish a pleasant and successful business, and close the connections which have existed between myself and my customers.

In Mr. Kemphall, I am assured, that my old friends and patrons will find a thorough business man, who will treat them courteously, deal honorably, keep a good stock, and sell at reasonable prices.

N. B. All accounts for or against me will be settled by him. ARCHIBALD WILSON,
Milwaukee, March 30, 1857.

Having purchased the stock of Mr. Archibald Wilson, and his interest in the bookselling business in this city, I propose to continue the same at the old stand, and shall endeavor, by keeping a full and desirable assortment, and by careful attention to business, to merit patronage from both old and new customers.

Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had failed—that no more R. W. Pierce's matches would be seen in market, &c., &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what is still better, that the public are to our rights in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $30,000, in 1856.

All orders by mail or otherwise promptly filled.

Monday Morning, April 20.

A Call for another "Organ."

Mr. J. D. Reymert appeals, thro' the columns of Saturday's *News*, to his "democratic friends" for aid and comfort in raising a "fund, to start and keep up a democratic Norwegian paper at the seat of Government," which shall reclaim the Norwegian electors of this State from the error of their ways. Mr. Reymert truly observes that "the Norwegians in this State are men of intelligence and reason, and look closely to the interests of the country they have adopted."—But he immediately qualifies this deserved compliment by insisting that they have "only looked at one side" of political questions and have been deceived and humbugged by the *Emigranten*, the Norwegian Republican paper, which, accordiog to Mr. Reymert, "carries with it the evidence of its venality, and has never had the confidence "of the class to which it addresses itself."

If this charge were true and the Norwegians are the intelligent, reading people that Mr. Reymert certifies them to be, it is obvious that the *Emigranten*, unless it enjoyed their "confidence," never could have beguiled them into the Republican ranks. But it is *not* true, and Mr. Reymert should be ashamed of himself for making it.—The *Emigranten* is a high-toned, well-conducted and influential paper, and enjoys, in a high degree, the respect, confidence and patronage of the Norwegian electors of this State. As to the new "organ," which Mr. Reymert proposes to establish and for which the *News* volunteers a certificate of good character, it is to be under the control of the Barstow tribe and to be devoted to the interests of "the Forty." We have no objection to Mr. Reymert and other Federal officers embarking in this hopeful speculation and thus proving their fealty to the Pro-Slavery administration of Mr. Buchanan, but we caution all honest democrats from throwing away their dimes, or dollars in such a venture. The Norwegians of this State understand perfectly well the character of Mr. R., his associates and his prospective "organ," and they cannot be deluded by any such *ignis-fatuus*, into the support of Slavery, or the party which justifies and sustains it. They are Republicans to the core, and enthusiastic friends of Free Labor, Free Speech and Free Soil. The Federal patronage cannot "start or keep up" organs enough in this State to win over the Norwegian electors from the Democratic Republican, to the *Sham* Democratic Standard.

The whole vote, it will be seen, is 1795. Last fall it was 2839. Jilson, (Rep.) for County Judge, has 97 majority.

Lafayette County.—The Mineral Point *Democrat* gives the following figures from Lafayette County:

	Cothren	Whiton.
Shullsburg	205	118
Willow Springs	117	16
Fayette	103	56
Centre	134	93
Benton	179	71

New Diggigs	128	125
Georgetown	108	67
	1114	613

Kendall and Gratiot are reported to have given majorities for Cothren.

Washington County Official.—The West Bend (Washington county) *Democrat* gives the following as the official vote in that county:—Cothren 1962, Whiton 505. The town of Richfield gave, besides, 220 votes for *M. M. Gotherin*; and the town of Barton 95 for *E. V. Whitony*. Both towns, we should judge, stand badly in need of school-masters.

Grant County.—Returns from all but two towns in Grant County show 1486 votes for Whiton, and 849 for Cothren. Whiton's majority, thus far, 637; which will be increased by the remaining towns. McGonigal, Republican, is elected County Judge by upwards of 500 majority.

Manitowoc County.—The Manitowoc *Democrat*, of the 17th inst., brings us the full vote of Manitowoc County. For Chief Justice, Cothren received 1581 votes and Whiton 722; and for County Judge, C. H. Walker (Dem.) received 1627 votes to 614 for Parrish (Rep.)

Portage County—Official.—The Plover *Herald* of the 16th instant says that the returns canvassed give 385 majority for Chief Justice Whiton, and 84 for Gilchrist, County Judge.—Three towns, which made no returns, gave some 140 majority for Whiton.

Walworth County—Official.—The vote of Walworth County, for Chief Justice, stands as follows: Whiton, 2625; Cothren 824. Whiton's majority, 1801. Peter Golder, Republican, is elected County Judge by 1299 majority.

Iowa County.—The Mineral Point *Democrat* estimates the majority in Iowa County, for Cothren, as 900. L. M. Strong is re-elected County Judge by 275 majority.

Newspaper Change.—The Portage *Independent* has been sold by its former proprietor, J. C. Chandler, to Mr. R. B. Wentworth, who will continue the publication of the paper, and advocate the principles of the Republican party.

The Circassians preparing for the Invasion.—A letter written to Pesth, Hungary, from a correspondent at the Circassian head quarters, and who is doubtless one of the Hungarian officers who accompanied Mehemed Bey, the new general-in-chief of the brave mountaineers, gives a flattering account of their preparations to meet their Russian invaders. He says:

"A deputation of the Circassian Diet has sent in the flag of the Prophet, which is the symbol of the highest power. The enthusiasm was very great when the new commander swore fidelity to the sacred standard."

Mehemed Bey said to the writer:

Russia will soon have an opportunity of convincing herself that a new spirit prevails. I know the materials which are placed at my disposal, and am of opinion that a nation which, without a military organization, could resist its enemy for 30 years, will, when properly organized, be able to achieve its complete independence.

The Best Route to Kansas.—The Chicago *Press* says:

The trip between Chicago and Leavenworth City by this route is as follows:

The trains connect each day with the 2 P. M. Kansas Express, which leaves St. Louis over the Pacific Railroad for Jefferson City, a pleasant run of six hours, there connecting with one of a daily line of new and finely appointed steamers direct for Kansas City and Leavenworth, making the time between St. Louis and the Territory in eight hours, and the entire trip from Chicago and Kansas in THREE DAYS.

The route will prove one of the most popular and pleasant imaginable, and be the leading channel the present season.

State of Affairs in Utah—Resignation of Judge Drummond.

A letter has been published, addressed to the Attorney General of the United States, being the resignation of W. W. Drummond, Judge of the territory of Utah, the region where Brigham Young holds sway. It is worthy of careful attention, showing, as it does, that murder and all manner of abominable crimes prevail there, encouraged and sustained by Young and his fellow "saints," and that the laws and authority of the United States are contemned and spit upon. The revelations made by Judge Drummond are of the most striking character, and we do not wonder at his resigning. The U. S. Government has a duty to perform in putting an end to the reign of terror in Utah, and will have the cordial support of all good citizens, in carrying out as speedily as possible, the necessary measures to re-establish its authority in Utah.

We have not space for the whole of this document; but the following points are stated by Judge Drummond:

In the first place, Brigham Young, the Governor of Utah territory, is the acknowledged head of the "Church of Jesus Christ of Latter-Day Saints," commonly called "Mormons," and as such head the Mormons look to *him alone*, for the *law* by which they are to be governed; therefore no law of Congress is by them considered binding in any manner.

Secondly. I know that there is a secret oath-bound organization among all the male members of the church, to acknowledge no law save the law of the "Holy Priesthood," which comes to the people through Brigham Young, direct from God, he, Young, being the vice-gerent of God and prophetic successor of Joseph Smith, who was the founder of this blind and treasonable organization.

Thirdly. I am fully aware that there is a set of men set apart by special order of the church to take both the lives and property of persons who may question the authority of the church, (the names of whom I will promptly make known at a future time.)

Fourth. That the records, papers, &c., of the Supreme Court have been destroyed by order of the church, with direct knowledge and approbation of Governor Young, and the federal officers grossly insulted for presuming to raise a single question about the treasonable act.

Fifthly. That the federal officers of the territory are constantly insulted, harassed and annoyed by the Mormons, and for those insults there is no redress.

Sixthly. That the federal officers are daily compelled to hear the form of the American government traduced, the chief executives of the nation, both lividg and dead, slandered and abused from the masses, as well as from all the leading members of the church, in the most vulgar, loathsome and wicked manner that the evil passions of man can possibly conceive.

Judge Drummond further goes into particulars, charging Brigham Young with pardoning convicted Mormon murderers before they reached their prison; with imprisoning several young men for the crime of refusing to settle in Salt Lake City; with directing the jurors in the Federal Courts whom to indict and whom not to indict; with instigating the murder, of Capt. Gunnison and of A. W. Babbit, Secretary of the Territory. He concludes as follows:

In conclusion, sir, I have to say, that in my career as Justice of the Supreme Court of Utah Territory, I have the consolation of knowing that I did my duty; that neither threats nor intimidations drove me from that path; upon the other hand, I am pained to say, that I accomplished little good while there; that the Judiciary is only treated as a farce. The only rule of law by which the infatuated followers of this curious people will be governed is the law of the church, and that emanates from Governor Brigham Young, and him alone.

I do believe that if there was a man put in office as Governor of that Territory who is not a member of the church, (Mormon,) and be supported with a sufficient military aid, that much good would result from such a course; but, as the Territory is now governed, and has been since the administration of Mr. Fillmore, at which time Young received his appointment as Governor, *it is noon day madness and folly to attempt to administer the law in that territory. The officers are insulted, harassed and murdered* for doing their duty, and not recognizing Brigham Young as the only law-giver and law-maker on earth. Of this every man can bear incontestible evidence who has been willing to accept an appointment in Utah, and I assure you, sir, that no man would be willing to risk his life and property in that territory after once trying the sad experiment.

Majorities	1017		378	

The above figures do not embrace the votes cast in the Town of *Sacramento*, no returns having been received at the office of the board of Supervisors. I have before me, however, a letter from a gentleman at Sacramento, written the 8th, which states the vote of that town as follows:

Whiton, 81; Cothren 31; Webb, 3; Hathaway, 107.

Add these to the official canvass, and Whiton's majority in the County is increased to 1,067, and Webb's for County Judge, is decreased to 262.

The vote in this county is light, owing to the fact that election day was cold and stormy, it snowing very hard all the afternoon.

I observe that you set old Rock down as the "Banner County." We, of Waushara, propose to do a little better in *Freedom's* cause than most of our sister counties, if not all of them,

Yours truly,
CRAWFORD.

Wautoma, April 14th, 1857.

(We are constrained to admit that a Republican majority of *one thousand and seventeen*, in an aggregate vote of twelve hundred and seventy-seven, beats even the "Banner County." Every pulse in our Northern counties beats true to Freedom—*Ed. Sentinel.*)

The Baltimore Fire.—The Baltmore *American* sums up the losses by the fire of Tuesday night of last week, at $635,000. One of the warehouses fell, burying a dozen or more persons in the ruins. Six of them were rescued, terribly wounded and burned, and seven bodies were taken out next morning. Eight persons were missing.

Another estimate makes the loss $402,000, of which $260,000 was insured. Of this, the Franklin, Philadelphia, had $25,000, the Hartford $10,000, the Liverpool and London $15,000, the Home, N. Y., $10,000, the Etna (Hartford) $4,000, and the balance in Baltimore and Philadelphia Companies.

Correspondence of the Sentinel.

MEN AND THINGS IN GOTHAM.

New York, April 9th, 1857.

Messrs Editors:—As the Sage of Brooklyn has not expatiated on weather matters so extensively of late, as has been his wont heretofore, depriving thereby a large country of much useful knowledge, the effect of which must be felt palpably by so enterprising a journal as the "*Sentinel*;" be mine the task to attempt to post you up, in that lucid and satisfactory manner for which the great "Merriam" is so justly celebrated; begging, in passing, that my "observations" will not be treated in that cavalier manner, meted out to many of his,—that is denied an insertion.

The present month is April. It has been less pluvious than usual; the comet, not yet visible to the naked eye, has perhaps had something to do with it, yet a close student of nature would ascribe it to more scientific causes; an unusual frigidity has prevailed, moisture has not exhaled, cloud material has been scarce; hence, no rain, except (exceptions proving the rule) one tremendous perpendicular watery splurge, which which was *nary* a shower after all. The cold weather may be attributed to various phenomena, say red noses, for 'tis a poor rule that don't work both ways; or perhaps the chilling effect, arising from the administration of Mr. Buchanan, whose physical lack of caloric undoubtedly pervades the country; though my own impression is, it's the comet, in contradiction to those wiseacres who insist that the long-tailed stranger, with a fiery exordium, will give us all fits, in less than two moons, about which your wicked community need not concern itself, for earthly wisdom has pierced the clouds and told us there are no data to go by. Owing to the intensely cold atmosphere last week, large icicles formed; snow could'nt keep up and so it fell, and navigation talked of stopping, but concluded finally to go on. A superabundance of fresh air, ordered the mud to "simmer down," or rather, to speak genteely, "dry up,"—which it did. The sub-strata, consisting principally of defunct felines, abandoned brogans, dilapidated culinary utensils, and the general debris of a big community, would'nt stir; the top soil went into my eyes, while we all lamented in dust and ashes, lifting up our voices, till the ignorant provinces came to the conclusion that Gotham was a place for unclean things, and over which they rejoiced with exceeding joy. Nothing but a lack of camels prevented our out *saharing* Sahare, whon some body, or a train, kicks up a great dust there. Finally a dirt eating people rebelled; for a steady dish, it would'nt go down; for a *desert*, occasionally it was just the thing; so new street cleaning contracts were made, which fell to the lot of that unconvinible Hercules, the owner of the street-sweeping machines; but ye ancient knights of the broom, famous for their charges, put the usurpers to an ignominious flight; once, twice, thrice, they scattered them, in encounters by day and night, the unparalleled impudence of the thing paralizing the municipal arm. The powers that be at last showed what they ought to have been; then the work went bravely on, "by St. Paul's" and elsewhere.

We approach cleanliness—we approach godliness,—we in fine complain of feeling better, though this great gain has deprived us of much cheap music, for all Italy, addicted to hand organs, has joined the grand army that carries a broom in its van, more potent than warlike army, for it alone has succeed in overcoming the Rags. When the allays are attended to, no doubt the piping times will again melodiously return.

Gotham is unsettled in many respects; the quarantine matter is not settled, Broadway is not relieved, the people haven't got over the idea that Capt. Rynders is U. S. Marshal. Trinity Church matters have gone wrong for the Church, which can fight it out, however, against all the freebooters in creation, till the crack of doom, and intends doing so beyond a peradventure. Trade is dull—western people don't pay up—southern ditto—croakers expect a grand crash; and last, not least, Mayor Wood threatens to resign; the breath of present influence and future power blow coldly on him, and he retires.

The late escapade in high life, whereby Miss Soker put herself in a condition to drive her own coach, has excited a vast amount of comment in circles of high and low degree; private opinion, as well as advice gratis, is always cheap, and however ignoble the fair lady's taste may have been, it does indeed seem unfortunate that such universal publicity was given the act, as to draw down on it the pity of one portion of the community, and the rudejeers of the vile or unthinking other; thus bringing home to an outraged hearthstone mortification and misery, to describe which language is vain. The libretto to a popular air now immortalises the story, and every ragged urchin cries aloud his ware through the crowded streets—to the tune of a penny a sheet; pah! the whole thing give one's mouth a bad taste.

April 19th—Real estate is supposed to be lively just now; when one consults the auction heads of that article, he would naturally infer it was as cheap as dirt, that all Gotham was for sale. There is no speculation in the article, and about three-fourths does not sell. Extravagant prices for certain down and up town positions, where business, or fashion most does congregate, but the great mass of mother earth goes a begging. Some fine properties will be offered this month, and among them Jones' Wood and Cornelius W. Lawrence's place at Manhattanville occupy a prominent position. The former, about 4 miles from the Park, contains the last remnant of woods in the city's limits, and is a lovely spot, running down to the East River; but streets and avenues have already desecrated it, rendering it no longer an exclusive home for those willing and able to retain it. I know of no place where the old and hallowed home feeling, which gives so much character to those who possess it, has been so cruelly outraged, by the grasping demands of improvement, so called, as here.—Mr. Lawrence's place contains nearly 300 lots on the banks of the Hudson, at Manhattanville, and is a very choice spot; but I doubt if it sells.—The owner, once a prominent citizen, is sadly broken down now, and to see him, no one would suppose he could have been the man he has been; but his history is only one of many such in our midst; while affording a curious study for the world student, it merits a tear of sympathy that such things can be.

The Brick Church property, I believe, was only partially sold after all, but enough so to dethrone a century land mark from its firm base. We drop a tear over departed worth, and it is said that such were wrung from the eyes of strong men when beholding the destruction of that temple where their fathers worshipped, and where their own little feet years ago pattered along the old aisles in that venerable house of prayer. It is a sad drawback to a Gothamite's happiness, that in his native city there is hardly a spot left to love; and how much oftener are old places worthy of affection than those who frequent, them or the new; it is an interesting topic, and I have no doubt most of our ill government arises from the one fact that here there is little, or no social attachment.

Some excitement exists here, owing to the probability that the title of most of our river property will be disputed ere long by the State, being on made ground, and constructed by former owners contrary to existing laws regulating the extent to which navigable waters may be encroached upon.

A mammoth parade has been in contemplation for some weeks, and will probably come off next week, and as it will embrace all the volunteer companies in this vicinity, the show is said to transcend all other military attempts of the past. Between 12 and 15,000, men will be under arms and the boys who don't have a good holiday on the momentous occasion will probably lift up their juvenile voices and weep.

The "*Niagara*," which attempted to go to sea last Friday on a trial trip, fulfilled all a sailor's forebodings by breaking her cylinder head, at the start, an accident which will detain her here a week or more.

Quite an excitement is said to prevail at a neighboring town (Paterson, N. J.) on the subject of pearls, inhabiting those delightful bivalves, soft clams; for a wonder, one of the gems is said to be literally a pearl of great price, but not the one we read of; a Broadway jeweler having offered some short of a "thousand" for it; verily, one must eat clams with discretion now-a-days. Shad are getting plenty, and come-atable to those of limited means, but I think the democratic clam with precious stones decidedly preferable to the aristocratic shad with democratic bones.

Some good pictures have been brought to the hammer recently, and it is amusing sometimes to see people buy what they are ignorant of. A prominent jobber bagged a landscape at thrice its value the other day, merely because in one of his jobbing jaunts he happened to stop at the tavern immortalized by the English artist; but lucky for him, the picture was a good one. Two poor specimens of "Stuart" fetched between $600 and $700 each, while several pictures by native painters brought double what they could have been had for at their studios. Really our merchant friends deserve the laugh and the worthy worker on canvass much of our sympathy.

Mrs. Gaskell's memoir of Charlotte Bronte is in press, and will shortly appear, and what is far more satisfactory to the admirers of that wonderful woman, is the fact that another fiction from her pen, finished just as life's candle flickered and went out in its socket, will appear almost simultaneously with the memoir.

Miss Heron has gone, I believe, to St. Louis, and it will be a long time ere we shall enjoy her acting again. Her success was so eminent that it seemed to stimulate towards the last many to deny her merits, and her debut in the "World's Own" seemed to afford some grounds for their argument. In that play the actress gained no new laurels, while her faults were made by it more prominent than usual; as a play it ought never to see the foot lights; but as a literary production it will attain without doubt a high rank. The "Bianca" of Miss Heron was a wonderful portraiture in many respects, coming up to all that I have understood was Fanny Kemble's excellence in the part years ago.

Lent is over and to-night the opera commences at Niblo's with the new prima donna, Madame Gazzaniga, of whom report speaks enthusiastically, in the "Traviata."

To-morrow the Opera Fund Ball occurs, and from the first much is expected of the last. So we go. VIOLA.

The City and Country Press.

Considerable discussion has grown out of the determination of the Milwaukee publishers to no longer exchange their dailies for weekly papers, unless the difference in price is paid by the latter. Many of our country exchanges have spoken in no measured terms in condemnation of the change. And we suppose, as one of the craft, we have a right to "put in our say."

We think, then, that the Milwaukee publishers do perfectly right in refusing to exchange a Daily for a Weekly, without the difference in price being paid. We have had considerable experience as publisher and editor of a daily paper, and know something of the tax it is upon the publisher of a daily to exchange with a large list of weeklies. It is a tax, we venture to say, that but few of our cotemporaries of the country press properly appreciate. The cost of preparing and issuing a *good* daily paper is immense, and we can see no reason why the publisher of a weekly should receive or ask a daily exchange without paying for it, any more than a subscriber to his paper should expect to receive it for nothing.

For our own part, we shall always hold ourselves in readiness to pay the difference in price, or render a fair equivalent in advertising, for any daily with which we may desire an exchange.—We publish the advertisement of the Milwaukee *Sentinel*, in payment for our exchange, as we shall cheerfully that of any other Milwaukee, Chicago, or New York daily we want. And we suppose that, by so doing, we are maintaining the honor and dignity of the country press, quite as effectually as by growling at a publisher for asking us a fair price for his daily, or by indulging in ill-tempered and ill-mannered objuration of him and his paper, because he refuses to send it to us for nothing.—*Whitewater Register.*

Galena & Southern Wisconsin R. R.

This Railroad is designed to play no insignificant part in building up the interests of this city, and there is no doubt that it will be built. The bonds and cash subscriptions in the hands of the Company are nearly or quite sufficient to build the road, and the Company are ready to let the contract as soon as the action of the M. & M. R. R. Co., with whose road this will connect, renders it expedient.

At the election yesterday, the stockholders elected the following citizens of Galena, Directors of the Company:

Nicholas Dowling, D. A. Barrows,
E. H. Beebe, D. B. Morehouse,
John Lorrain, C. L. Stephenson,
S. W. McMaster.

At a subsequent meeting of the Directors, the following gentlemen were elected officers of the Road:

E. H. Beebe, President,
S. W. Mc Master, Secretary and Treasurer.

Correspondence of the Missouri Democrat.

From Kansas.

Lecompton, (K. T.) April 18.

Fresh cause for pro-slavery agitation has again been sent to Kansas from Washington.—The appointments of the administration for Kansas, have inspired new courage into those who wish to make Kansas a slave state. Stock in the pro-slavery towns is rising. A spirit of violent and reckless lawlessness is again beginning to be exhibited. It is now considered a sure thing that the power of the government at Washington will be used to make Kansas a slave state. The appointments of leaders of the law and border ruffians to offices, give great encouragement to all who would follow in their footsteps. W. E. Murphy, of Leavenworth, a noted ringleader in the pro-slavery difficulties, has been appointed agent to the Pottowatomie Indians, Captain Emery who led the gang that plundered and burned houses in Leavenworth last September and murdered Mr. Phillips, besides driving our industrious and useful citizens because they happened to be free state men, has been rewarded by an appointment to the land office, instead of being put on trial for his crimes, as he deserves.

Immigration Westward.—One of the editors of the *Press* has had during the past week a practical illustration of the manner in which the people are elbowing each other in their journey westward. We returned home from the East yesterday, on the Michigan Southern railroad, arriving about noon. The train consisted of fourteen first-class passenger cars, besides emigrant and baggage cars, the whole containing at least seven hundred passengers. A young man who had a taste for such investigations canvassed the cars, and found that three hundred and twenty-nine of the number were emigrating to Iowa, Wisconsin and Minnesota.—*Chicago Dem. Press*, April 18th.

☞ There are 11 organized towns in this county, to wit: Stevens Point, New Hope, Amherst, Steckton, Lanark, Belmont, Almond, Pine Grove, Buena Vista, Plover and Linden. There will be a large accession to the population of each of these towns during the present season. —*Plover (Portage County) Herald.*

New Vessel.—The vessel just completed by Capt. Barnan, and named the *G. Barber*, cleared on Saturday for Muskegon, for her first trip in the lumber trade. She is a stanuch, well-built, handsome vessel, 92 feet keel, 24 feet beam, and about 8 feet hold, registering 157 tons.

Messrs. W. H. McDonald & Co., of this place have purchased the new fore and aft schooner Jane Louise of Ohio for $2,800.

Launch of Ex Tempo.—The new vessel built for Messrs. B. Jones & Co., was launched on Tuesday last under the supervision of Captains Bates and Hughes.

The expectations of her owners are not disappointed, she sits on the water like a duck. She will always be in time. Her dimensions are as follows:

Length on deck 105 feet, keel 104, breadth 26 1-2, depth of hold 8½.—*Manitowoc Tribune*, April 17.

Mr. McPhie, the well known builder of the ship City of Toronto, has commenced the construction of vessels in Collingwood, under the best auspices, and with most favorable prospects. His yard is situated on the old village property, near Hamilton's mill, and he has a good sized schooner already well advanced. Timber of the best quality is to be found in the immediate neighborhood. There is a good demand for vessels for the carrying trade of the port, and with Mr. McPhie's energy and skill as a shipbuilder, there can be no doubt of his driving a prosperous business.—*Toronto Globe.*

Ship-Building at Vermillion.—We are informed by Capt. Jilson that four vessels are building at the lively ship yards at Vermillion, about eighty men being employed.

I. W. Nichols has on the stocks a schooner for Captain Bradley, tonnage 320 tons, and capacity for 15,000 bushels wheat.

F. Cranmer is building for Leonard & Wells a schooner of 400 tons, capable of carrying 15,000 bushels.

P. M. Brush has a fine schooner building for C. L. Benton, tonnage 355 tons, and with a capability of 15,000 bushels.

B. P. Peters has on the stocks for Philip Minch a vessel of 250 tons, able to take 13,000 bushels.—*Buffalo Courier.*

New York Cent. R. R. Line.—The propellers *Arrow, Genesee, Keystone* and *Baltic*, and steamer *Minnesota*, are to form a regular line, in connection with this Road, between Buffalo and this city.—*Toledo Blade.*

THE ONLY MEDAL AWARDED

BY THE NEW YORK EXHIBITION to the English or Foreign Sauce Manufacturers has been obtained, amongst numerous competitors, by LEA & PERRINS, for their

Worcestershire Sauce,

Whereby further testimony is afforded of its being the best Sauce extant.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman who writes to LEA & PERRINS thus:—"I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my presentable state of health to its use; your Sauce is stomachic, and I think medicinal. I can with truth say there is nothing in a traveller's baggage so essential to his comfort, at least in those countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms:—"Tell Lea & Perrins that their sauce is highly approved in India, and that it is in my opinion the most palatable as well as the most wholesome sauce made."

This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created, hasled to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.

POLICE COURT, APRIL 18.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

BEATING HIS MOTHER.—A fellow named Wilhelm Warnke, who has been in the habit of pounding his mother for some time past, was brought up for beating and striking her again. He was found guilty and sentenced to 30 days imprisonment in the county jail.

August Kruer, convicted of an assault and battery upon Casper Meyer, was fined $5 and costs.

Simeon Michel was charged with an assault and battery upon George Wright. The case was continued to April 22d, at 10 A. M., for trial.

David Ross was charged with a savage assault and battery upon a sailor, striking him a wicked blow with a chain hook. Like most cases in which a common sailor is the defendant, a compromise was effected, notwithstanding "Jack's" figure-head was badly damaged. Case dismissed on payment of costs.

John Rennett, for being drunk and disorderly, was fined $25. The defendant is an old offender, repeatedly up for drunkenness.

James Duff, for fast driving on bridge, fined $9.

Jerry Kelley, placing obstructions on sidewalk, fined $3,00.

April Term of the Circuit Court.

The April term of the Circuit Court of Milwaukee County commences this morning. The Grand Jury will meet, be empannelled, sworn, charged and retire, and then ——

The two calendars, civil and criminal, are large; the former contains 104 cases, the latter 103. Some of these, the criminal ones, are of so ancient a date that the records begin to look rusty. The new *code* comes into vogue, and all civil cases must be tried under it.

The Hon. A. W. RANDALL, who has just left the bench, instituted something like a new *code* for the trial of criminals, while he occupied the bench; that is, it was new to this circuit. Some of the old, most ancient, and we admit antiquated, rules of law were demolished; "that a man was presumed to be innocent until he was proved to be guilty; that confessions extorted by threats or coaxed by promises were no evidence." Indeed the Judge had the audacity, and even the intrepidity, to check officers in their testimony when too eager to volunteer statements not called for by the prosecution, and not permissible by the rules of criminal evidence. In short, Judge RANDALL came very near setting the fact, that a citizen, though indicted, arraigned and on trial, might still be innocent of the offence with which he was charged and being tried for; that in fact, the object of the trial was to ascertain and determine the guilt or innocences of the accused, and not a mere form carried on as a simple prelude to punishment.

We trust that his successor may follow in this straight and strictly legal wake, and that he will never for a moment forget, whenever a fellow-man is on trial before him, no matter what the offence with which he is charged,—no matter how the foot and loathsome air of an inhuman jail may have "hued" his features,—how pale his cheeks, or dimmed his eyes,—let him not forget that the accused is still a man, and that although the prosecution and its officers be eager for his conviction—though a dozen indictments stand behind him—

"A manly is a man for a' that."

The manner in which criminals have been convicted heretofore in this County, has been such as often to produce a great doubt of their guilt, and in this can be traced too often the ground-work for obtaining pardons.

LECTURE TO-NIGHT.—DR. BAIRD commences his course of illustrated lectures upon Europe this evening, at Young's Hall. His subject for this occasion, is "The Crowned Heads and Courts of Europe." From all that we have heard in praise of these lectures, we believe they will form the most attractive course given in Milwaukee during the season. The Chicago *Christian Times* thus speaks of them:

DR. BAIRD'S LECTURES.—Had we space at command it would afford us much pleasure to give to our readers the substance of the eight lectures recently delivered by Dr. Baird, in this city, on "Europe." These lectures, however, are made up so almost exclusively of *facts*, that it is impossible to do justice to them in any abstract of them that could be brought within the limits we should be compelled to observe. Still, we cannot pass them without some acknowledgement of their special value and interest. Dr. Baird possesses a rare gift both as a gatherer and a dispenser of facts. Not every man can hold the attention and interest of a audience during a succession of evenings in the recital of topographical, statistical, personal and historical matters, avoiding the commonplace on the one hand and the tediously elaborate on the other. The hundreds who have attended these lectures will concede that praise to Dr. Baird. While his style is colloquial and simple it still has vigor and vivacity enough to give a charm to the details he recites; while his facts, gathered partly by personal visitation of the different countries, partly from other sources, are exactly of the kind to give the most distinct and correct ideas of the things described. The citizens of Chicago are under a debt of obligation to the reverend gentleman for the profitable entertainment he has afforded them.

The People's Bank.

At a meeting of the Stockholders of the People's Bank, held on the 17th day of April instant, the following persons were duly elected Directors thereof for the ensuing year:

Herman Haertel,	Conde R. Allen,
E. B. Greenleaf,	Herman Schwarting,
Augustus Grenlich,	H. L. Palmer,
Ferdinand Keuhn.	

At a meeting of the Directors, held on the same day, the following officers were elected, viz:

President—HERMAN HAERTEL.
Vice President—H. L. PALMER.
Cashier—E. B. GREENLEAF.

And it was resolved that the Capital Stock of said Bank be increased to $100,000, and that books be immediately opened for the purpose of procuring subscriptions for such increased capital, under the direction of a committee, consisting of Messrs HAERTEL, GREENLEAF and ALLEN.

The People's Bank will thus become a regularly organized Stock Bank. It is in good hands, has been prudently managed and is doing a lucrative business.

GOOD ENGINES.—There are two engines on the Milwaukee & Mississippi R. R., which were, or ought to have been, the first ones into Prairie du Chien, and which deserve a special paragraph. They are named the *Wisconsin* and the *Iowa*, are of small size, and were built at the Schenectady Works, and put at work on the road in 1848, at the very beginning of operations. From that time forward, they have been constantly at work drawing construction trains as the road progressed, and thus led through to the river. Out in all kinds of weather, they have very seldom been sheltered in any manner. "True as steel," they have very seldom been out of order in any manner. About once a year they have been run into the repair shop for a few days, and then out again, to be seen in it no more for another year; and, after nearly 9 years of service, they are now as reliable as any engines on the road, and these well-named, persevering machines have at length joined Wisconsin and Iowa together.

The Schenectady Company deserve that this much, at least, should be said for these remarkable specimens of their workmanship. They will now probably go on to the Southern line, and work through the southern tier of counties, after finishing up the ballasting of the main line.

A USEFUL INVENTION.—The Scientific *American* of March 28th, speaks, in very favorable terms, of the new process for tanning Leather, patented by Edwin Daniels, of Elkhorn, Wisconsin, in January last. No bark is used in the process, and it is claimed by the inventor that the outlay for buildings and fixtures is only *one-tenth* of that required under the old method of tanning. The *American* speaks of the Leather, prepared by Mr. Daniels' process, as well tanned, firm, soft and elastic. We have seen certificates from Mr. Campbell, and other excellent boot-makers in this city, and from a number of gentlemen who have worn boots made of the leather tanned by this new process, all testifying to its superior qualities. All desired information in regard to it may be obtained of Mr. E. Butterfield, of this city, who is interested in the patent.

THE PUBLIC SCHOOLS.—The Public Schools in all the wards except the Fourth, will be opened for the reception of pupils *to-day*. The opening of the Fourth Ward School is deferred till the 11th of May, to allow time for the completion of its repairs.

FIRE KINDLERS.—A GREAT CONVENIENCE—MATCHES.—We had a call yesterday from Mr. I. W. HINMAN, formerly of our city, but now of Detroit, where he is largely engaged in the manufacture of Matches, of a superior character, and of patent *Fire Kindlers*. These last are just the thing for housekeepers. Made of a resinous substance, they are neat, saving all the trouble of gathering chips, &c, to kindle with—sure fire—and cheap, being retailed at 25c for 9 doz. kindlers. Each one is wrapped in a bit of newspaper. You arrange your wood or coal in the stove, put your kindler in its place, touch a match to the paper, close the door for a moment till the thing is ignited, let on the draft, and the fire is made.

This is a very valuable accession to the conveniences of household economy, and everybody must have a supply.

SPRING—WHERE IS IT?—We have rarely seen such a continuance of "tedious" weather, as we have been thus far favored with, this spring. March, with the exception of six, or eight days, was as cold as an ordinary January and April has been but little better. We have had a constant succession of snow-storms, cold winds and cloudy days, relieved, once or twice, by brief glimpses of the sun. Well did Hood write:

"Come, gentle Spring! Ethereal mildness, come!"
Oh, Thompson, void of rhyme as well as reason,
How could you be for making such a "hum?"
There's no such season!"

SUITS AGAINST POLICEMEN.—Among the suits, noticed for trial at the Circuit Court, which commences its sittings to-day, are two against Policemen for assault and battery and false imprisonment. One of the suits is brought by Mr. Hawkins against ex-Policeman Rice, and the other is brought against Policeman Durcel by J. S. Vincent. Jas. H. Paine & Sons, for the Plaintiffs, in each case. E. G. Ryan, Esq., is retained for the defence in one case; in the other, the City Attorney defends.

CROSS WALKS.—In some parts of the City the cross walks are so high above the street, as to compel drivers to obey the ordinance "not to drive faster than a walk across any cross walk;" but they are dangerous to the carriages and other vehicles, and need filling in on each side, so that all vehicles may be run with safety.

GOOD MORTAR.—We noticed on Saturday the removal of some brick work that had been in the ground, or rather on the edge of the ground, for six years. The mortar was "concrete" and as hard as a stone. It was made of lime and lake shore sand, and was harder than the brick.

FIFTH WARD GAS CO.—The following persons were on Saturday elected Directors of the Company:

WM. A. HAWKINS, HANS REES, S. H. MARTIN, J. H. OGDEN, G. G. DOUSMAN.

CURE OF CONSUMPTION.—The New York *Herald* asserts that DR. ROBERT HUNTER, of that city, who treats Consumption by Inhalation, has accomplished many extraordinary cures. The following figures, taken from the City Inspector's Report, show a remarkable decrease in deaths from Consumption within the last three years:

Deaths from Consumption in	1854—In 1855—In 1856.
	3,002 2,624 2,557.

Dr. W. HUNTER, of this city, who pursues the same treatment, is a brother of Doctor ROBT. HUNTER, of New York.

LIFE AND DEATH.—Two principles in the human system are continually struggling to overthrow each other—Health, which is the principle of Life, and Disease, which is the principle of Death. Herrick's Sugar Coated Pills possess the curative power to impart health to the diseased body; to prolong life, and to free the human family from all pains, aches and bodily infirmities. Sold throughout the world by dealers. Price 25 cents.

MESSRS. EDITORS:—For the information of the public, please give a place in your columns to the following statement of facts, which can be proved at any time, respecting the superiority of the *Double Action Combination Lock*, manufactured by us only, over the so-called "*Bramah Lock*," manufactured by Messrs. Berliner & Bruno, which was picked by our Mr. Johnson, with only a piece of wood, thereby showing its utter unreliability for the purposes for which it is intended, viz: for Safes and Bank Vaults; one of the Bramah Locks placed by them on the vault door of the Farmers' & Millers' Bank, was opened on the 15th of March last, by our Mr. Johnson, in less than 12 minutes; another Lock of the same make, on one of their safes in the Daily News office, was picked on the 17th of March, by the insertion of a small piece of wood in 17 minutes, thus showing conclusively their utter unfitness for Safes and Vaults.

We hold ourselves ready at any time to permit Messrs. Berliner & Bruno, or any other person, to undertake the picking of our *Double Action Combination Lock* in our Store, in the presence of reliable witnesses. Messrs. Berliner & Bruno, in addition to this invitation, will also have the benefit of a reward for $500 to $1000, in case they succeed, with the understanding however, of a forfeiture on their part for a like amount in case they fail.

ROBINSON'S DOWNWARD DRAFT

GRID IRON.

"What though with lavish kindness
The Smith stints an air stream?
Some Bricks in her blindness
Will cook them hard as stones."

The author of the above lines should purchase one of Robinson's Grid Irons, and the poor Bridget would have something on which she could cook a steak as it should be.

[From the Boston Advertiser.]

A good beefsteak, well cooked, is seldom appears in the line of most men's lives, that we think a very great advance has been made in civilization by the introduction of a new *gridiron*, which enables even a simpleminded cook to cook a steak *perfectly* well. So great is the advance, that we gladly call to it the attention of our readers.

This new gridiron accomplishes three desiderata:

1. It saves all the gravy of the meat, none dropping into the fire.
2. It cooks the steak through, without burning the outside.
3. It prevents the passage of any smoke into the kitchen or house.

The grand result, as we are made certain by the judgment of many experts, as well as our own more fallible taste, is, that with less trouble, meat is broiled better than ever before.

INSTRUCTION.

SALOM'S MERCANTILE COLLEGE!

A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this Institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. B. DE CRETY, from PARIS, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their hours being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety loaning books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M.. And in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, health, manliness, their health, acquire strength in their limbs, and find an agreeable recreation.

Mr. De Crety will also form similar classes for children from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. DE CRETY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.
